

**Municipal Candidates' Questionnaire results, conducted by  
the Hamilton Chamber of Commerce.**

\*\* results as of Nov 1st 2006 \*\*

**QUESTIONS:**

1. With respect to already established procedures, do you support the expeditious development of land surrounding Hamilton's airport for employment purposes?

2. Would you support the establishment of an organizational model for City Council (i.e. mandated Community Councils), which would not only outline clear accountabilities, but would also define Council's role in governing/guiding staff in regard to day-to-day business decisions?

3. The construction industry has expressed concerns regarding the current City of Hamilton tendering and procurement practices. Specific concerns are transparency in the bid opening and prequalification process – the complexity of contract documents and the negative procurement atmosphere. Will you call for a review of the City's procurement process in this regard and consider the alignment with industry standards?

**Candidates:**  
(in alphabetical order)
