

CHAIM EMPLOYMENT

July 2021

Featured Candidates

ANDREA CARMONA

Research and Analytics, International Business BSc, DPLM

With 4+ years of experience in finance, accounting and sales she has proven to be proactive and resilient. Her extensive experience analyzing, organizing and presenting data in SQL and Excel are an asset to any organization she has joined in the past.

She recently finished her Diploma in Marketing Research at Centennial College and is looking to join the Canadian Workforce in a position where she can develop all fronts of her expertise.

JONATHAN OSORIO

BSc Civil Engineering

With eight years of experience in the construction sector, he has a background in roads, post-tensioned beam bridges, successive segments bridges, and over 20 kilometers of tunnel lining. Thanks to the tunnel lining projects, he has experience with waterproofing, formwork positioning, concreting, drains, rigid pavements, and delivery from the construction team to the electromechanical one. He is an avid problem solver, able to manage personnel and equipment. He is passionate about optimization of resources and time management which he has found to be paramount in this industry.

LUZ MEJIA

Business Analyst

With 10+ years of experience, Luz Mejia has managed a project's life cycle from end-to-end, collaborating with business stakeholders and clients, evaluating business needs, problem-solving, eliciting and anticipating requirements, overseeing systems analysis, support and risk management. She has experience managing commercial relationships, advising clients and delivering the portfolio of products customized to their needs. Knowledge of payment and income management, B2B connections, financial planning, budget management and allocations some of her best assets.
